Men Past Fifty In Danger.

Men past middle life have found comfort and relief in Foley's Kidney Remedy. L. E. Morris, of Dexter, Ky., writes: "Up to a year ago my father suffered from kidney and bladder trouble and several physicians pronounced it enlargement of the prostate gland and advised an operation. On account of his age we were afraid he could not stand it and I recommended Foley's Kidney Remedy, and the first bottle relieved him, and after taking the second bottle he was no longer troubled with this complaint. They regulate Stomach, Liver and Kidneys, purify the blood, give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 50c at Penny's Drug Store.

The new Missouri anti-cigarette law prohibits the smoking of cigarettes in public places by persons between the ages of 10 and 18. NO EXCUSE FOR PRESENT CONDITIONS.

AUDITOR JAMES is a good man, but he can not refrain from juggling figures to make a point against the late democratic administration in order to bolster up the present incompetent management of the State's affairs. Mr. James claims that the present condition of its finances is due in part to large appropriations by the Legislature, which did not provide for their payments but the appropriations were no larger than usual, when a democratic administration paid them and kept the State's credit gilt edged. There is little excuse for the present condition. The republicans have the benefit of a most exacting revenue law, the same tax rate as formerly, with large increase in assessments. Besides the useless expenditure of \$160,000 for soldiers to put down the night riders, there have been other leaks in the treasury, not known under democratic rules. We should like to hear Auditor James explain the "quite remarkable fact that in the only two republican administrations that have discredited the State, the treasury has suspended payment and its warrants gone below par. It was so during Gov. Bradley's regime. It is so under Gov. Willson's. Perhaps after a while the people may be convinced that the republicans can not be trusted with the State's management and vote so unanimously hereafter to keep them out of power that none of them will dare offer for State office again.

THE law makes the members of the fiscal court personally liable to fines of \$50 each for failure to publish the county's financial condition annually. The Franklin county fiscal court was indicted for failing to publish the report and after a hard fought legal battle escaped on a flimsy technicality and a promise to obey the law hereafter. The fiscal court of Mercer doesn't propose to suffer prosecution and fine, so it publishes the county's financial statement in the current issue of the Herald, which shows it to be in good shape. When courts flagrantly disregard the law, a suspicion is created at once that there is something rotten, not only in Denmark, but in the management of the county's affairs. Fiscal courts which are perfectly confident that everything is right will not permit themselves to rest under suspicion by not publishing the statements.

RUSSELL SAGE, who died leaving many millions of dollars, made and maintained a reputation for penuriousness that was equalled only by his accumulations. They profited him little, however, as the only enjoyment he got out of his money was that of possession. Since his death his wife has been trying to make up for his closeness by being as liberal as he was tight-fisted. In the three years since he went hence, Mrs. Sage has given to various institutions and charities more than \$25,000,000, nearly always in the name of her husband, who gets no credit for it here and does not serve to ameliorate his condition now and hereafter.

OUR readers may not know it but there is a manufactory of automobiles at Lexington which turns out five very fine machines a week, for which there is great demand. Every thing except the iron frames and wheels are made in the factory, which now employs 64 men. An increase in the capital stock of the concern was ordered last week which will enable it to build a machine a day. "The Lexington" is the name given the car, which is a great advertisement for the capital of the Blue Grass.

Mrs. ANNIS, widow of the man Capt. Hains killed, for which he is serving a long term in a New York penitentiary, says she will marry as soon as her theatrical engagements end, adding that she can never be happy again in this world, although she knows her prospective husband will do all in his power to make her happy. Mrs. Annis is just talking through her merry widow. It doesn't take the average woman long to be off with the old love when she gets a chance at a new.

THE Burley Tobacco Society has fixed President Clarence LeBus' salary at \$30,000 for three years. Mr. LeBus is said to be a fine business man and to have accomplished a good deal for the tobacco producers, but to a rank outsider this seems to be a pretty good bunch of money for them to put up for it.

It is made unlawful by an act of the Washington Legislature to smoke a cigarette within the Alaskan Yukon Exposition. It would be a good thing for the little fellows who puff them here if Stanford was embraced in the confines of that exposition.

WILLIAM J. BRYAN is in the race for United States Senator from Nebraska. This statement was made by Richard L. Metcalfe, editor of the Commoner. Mr. Metcalfe says Bryan will at once begin formulating a campaign.

A LONDON special says: "Congressman D. C. Edwards denies that he intends to move to Richmond, stating that he would stay at London until he was defeated for the nomination for reelection, but in that event that he might move to the Eighth district and tackle Harvey Helm." Mr. Edwards will find it far easier to defeat men of Calhoun's ilk than he would gentlemen of Hon. Harvey Helm's political and social standing. However, for the fun of the thing he might come down and try a bout with the "Tall Sycamore of the St. Asaph."

AN Indiana preacher endeavors to focus attention to himself by stating that the reason girls are so fond of dancing is that they want to get themselves hugged. This is the veriest poppycock. Indiana girls may seek such opportunity to be hugged. The ones we know do not have to resort to such efforts. They can get all the hugging they want without half trying.

CURTIS JETT signs his letter urging the enforcement of the law against assassins in Breathitt county, "Yours in Jesus." The penitentiary has had apparently quite a soothing effect on this talented young assassin, but it is possibly a case of when the devil is sick a monk he'd be, when the devil is well, the devil of a monk is he.

The proposed 14-foot deep waterway project from St. Louis to the gulf received a blow when the board of engineers reported to Congress that such a waterway is not desirable. The waterway would cost \$128,000,000 for construction and \$6,000,000 annually for maintenance, the engineers say.

Income tax shared with the wool schedule the attention of the Senate and after discussion of an hour or more its further consideration was postponed until June 18. This action was the result of a motion made by Senator Aldrich which followed a charge by Senator Bailey that undue influence was being brought to bear against the proposed income tax amendment to the tariff bill.

Denouncing as inexcusable and indefensible any proposition by the Finance Committee to increase the low rates fixed by the House bill for the protection of the print paper industry, Senator Brown, of Nebraska, declared that that industry needs no protection. These paper mills, he insisted, have an advantage over foreign mills whether they are in Scandinavia, Germany or Canada.

Three Ideal Farms In One.

The perfection of real estate, all that is beautiful and desirable in country life, including locality, soil and improvements, is embodied in a farm of 435 acres, adjoining the thriving town of Bryansville, Ky., and near the famous Camp Dick Robinson farm, which sell at over \$100 per acre.

There are three tracts, with dwellings and improvements on each, suitable for three families desiring to locate on adjoining farms; or, if bought by one party, two houses could be occupied by tobacco tenants. The best equipped barn in the county, is on the premises, having water supplied by a wind-mill. The floors are built as residence flooring, the stalls are large and well constructed, machinery for cutting feed being run by an engine.

Stock scales and a large tobacco barn are among other improvements. The land lies well and is of a high grade, well fenced, well watered a portion of it being matted with blue grass, in gently undulating pastures. Most of the land has been kept in grass and will easily raise 1,500 pounds of hemp, 1,800 pounds of tobacco and 60 to 75 bushels of corn. Such soil is the basis of all value, and the large profit, which it yields on the investment, explains why capital is seeking real estate, it being not only the best but the safest investment. This, together with the fact that population is increasing, thereby insuring a continuance, of good prices for farm products, proves that good real estate will continue to advance in price.

Besides the intrinsic value of a home, the locality and surroundings render it more or less valuable. Good roads, good schools, churches and good morals are important factors, in determining the value of a farm, because they contribute to man's substantial happiness, which is the mainspring of human action and the object sought, in every section of our God-favored country. These elements enter largely into the attractiveness and, consequently, the value of this property. It lies on a splendid turnpike for a distance of about one mile, the community consists of the highest grade of citizenship, the people being moral, cultured and exceedingly hospitable. The residences are in sight

The case will be appealed and if the decision is sustained we are informed that the fiscal court will sue Mr. Murphy for damages, claiming the road is in a worse condition than it formerly was. McCarty, rendered Saturday afternoon, is as follows: "This cause came for trial and the court, after hearing all proof offered by the parties hereto and considering all exhibits on file, and being fully advised is of the opinion that there has been no final hearing or decision of said contest mentioned in the petition herein and therefore adjudges that the plaintiff is entitled to the relief prayed in the petition hereinafter stated. It is therefore ordered and adjudged that the gentlemen composing the democratic county committee meet and they and each of them are hereby ordered and directed to meet as such committee on Monday, July 5, 1909, and hear the contest of the plaintiff, M. S. Baughman, against W. L. McCarty for the democratic nomination for sheriff of Lincoln county." The court then adjourned and the May term of the Lincoln Circuit Court became a memory.
